

24V Model: 65399-S

24V CP Model: 65401-S

Specifications

Power:	1100W continuous DC power at 20°C (68°F)
Voltage:	24VDC (12VDC and 48VDC available)
Scope of Supply:	2x8550 Thermoelectric Generators, stand, fuel and electrical manifolds and junction box
Typical Applications:	Pipeline
Typical Loads:	RTU/SCADA, modem/radio, transmitters, solenoids, pumps, block valves, cathodic protection
System Add-Ons:	Remote start, battery bank backup (8–24H typical), cathodic protection, DC distribution, AC distribution, Modbus/Control, custom design
Weight:	244 Kg (538 lb)

Notes:

- ✓ Please refer to "Standard Gaseous Fuel Specifications for TEGs" for Natural Gas fuel details. Propane fuel option available.
- ✓ For a detailed quotation, or to place an order, please contact Global Power Technologies.
