

## Quality Assurance Specialist, Bassano AB

### Our Company

Global Power Technologies (GPT) is the world's leading manufacturer and distributor of Thermoelectric Generators (TEGs) and a leading supplier of Remote Power Systems. The Company's products are used extensively in the oil and gas industry as well as for telecommunications, security and surveillance and military applications. With sales into 50 countries, GPT has been providing reliable solutions for critical remote power applications around the world since 1975.

We are looking for energetic and dedicated individuals to join our GPT team. You will be a part of a positive, respectful environment where we take genuine pride in all that we do and are passionate about ensuring the success of our customers and our employees.

### Job Purpose

Based at our Bassano manufacturing facility, the Quality Assurance (QA) Specialist will be responsible for supporting the quality program including implementation of continuous improvement initiatives that best support our brand strategy while balancing cost impacts.

### Key Responsibilities and Duties

- Drive quality improvements within the Bassano and Calgary facilities using industry best practices.
- Lead all quality investigations including root cause analysis and corrective/preventive actions with cost impact in mind.
- Perform both incoming and outgoing inspections.
- Perform ISO9001 and IECEx internal audits and facilitate any external audits.
- Reject nonconformances, initiate nonconformance reports and ensure closure, working with cross functional teams to do so.
- Maintenance of Quality Management System documentation and processes.
- Monitor and report regularly the progress of non conformance reports and corrective actions to ensure effectiveness of program.
- Provide training as required
- Travel between Calgary and Bassano facilities as required
- Other duties as assigned

### Qualifications

- 5-7 years of experience in a quality role within a manufacturing environment.
- Completion of post-secondary education in a related field (Mechanical, Manufacturing or Industrial Engineering/Technology)
- ISO9001 Auditor certification is an asset
- Able to read and understand Engineering drawings
- Demonstrated experience with ISO9001-2015 and related Quality Management Systems
- Experience with IECEx (ISO/IED 80079-34) is an asset
- Experience working with product certifying bodies such as CSA
- Strong analytical, critical thinking, problem-solving skills and a high degree of accuracy and attention to detail.
- Experience with LEAN projects/principles is an asset
- Experience with SAP is an asset.

- Proven track record with respect to continuous improvement project delivery services and value-added processes and practices.
- Ability to forge, grow and maintain positive relationships with multiple groups.
- Able to manage, multiple priorities simultaneously and meet time demands of unpredictable activities; capable of handling pressure and challenges in a dynamic business environment
- Must be able and willing to travel between facilities on a regular basis

#### **What We Offer**

At GPT we care about the personal job satisfaction of our employees. We recognize the wide variety of factors that contribute to this satisfaction and encourage work life balance. Along with competitive compensation and benefits packages, we offer a respectful work environment, one which provides our employees with valuable learning experiences and career growth opportunities.

#### **To Apply**

Please submit your resume and cover letter to [HR@globalte.com](mailto:HR@globalte.com) quoting the job title in the subject line and tell us why you are the best candidate for the job. We thank all applicants for their interest, however due to the volume of anticipated applications, we will be responding only to those candidates who are selected for an interview.
